HISTORIC AMERICAN ENGINEERING RECORD

INDEX TO PHOTOGRAPHS

MORONY HYDROELECTRIC FACILITY, DAM AND POWERHOUSE
Morony Dam Road
Great Falls vicinity
Cascade County
Montana

HAER MT-135-B

INDEX TO BLACK AND WHITE PHOTOGRAPHS

Kristi Hager, photographer, May 2007

MT-135-B-1	Context view of Morony Dam and Powerhouse, view to southeast
MT-135-B-2	Overview of Powerhouse interior showing exciter units on generating floor, view to west
MT-135-B-3	Motor-generator exciter unit 1, view to southeast
MT-135-B-4	Motor-generator exciter unit 2, view to south
MT-135-B-5	Turbine-exciter unit. Exciter at center, modern replacement governor at right and retired governor at left, view to west
MT-135-B-6	Exciter turbine pit
MT-135-B-7	Detail of exciter turbine showing shaft, scroll case, servo-motor and operating ring (left foreground) and hand wheel for butterfly valve (right background)
MT-135-B-8	Overview of transformer platform showing three original step-up transformer (center), steel switchback (right), and modern step-down transformer (foreground), view to northwest
MT-135-B-9	Close up of original step-up transformers (left) and steel switchback (right), view to northwest
MT-135-B-10	Detail of original step-up transformer tank, view to west-northwest

MT-135-B-11	Detail of original step-up transformer showing high-tension bushing on top of tank and oil tank to left, view to north-northwest
MT-135-B-12	View of transformer platform from Powerhouse roof showing oil tank at original step-up transformer (center of foreground) and steel switchback (background), view to north-northeast
MT-135-B-13	Detail of original step-up transformer showing water discharge pipe and rail supports
MT-135-B-14	Modern step-up transformer, view to northwest
MT-135-B-15	Modern step-down transformer, view to north
